

Non - Conveyable Items

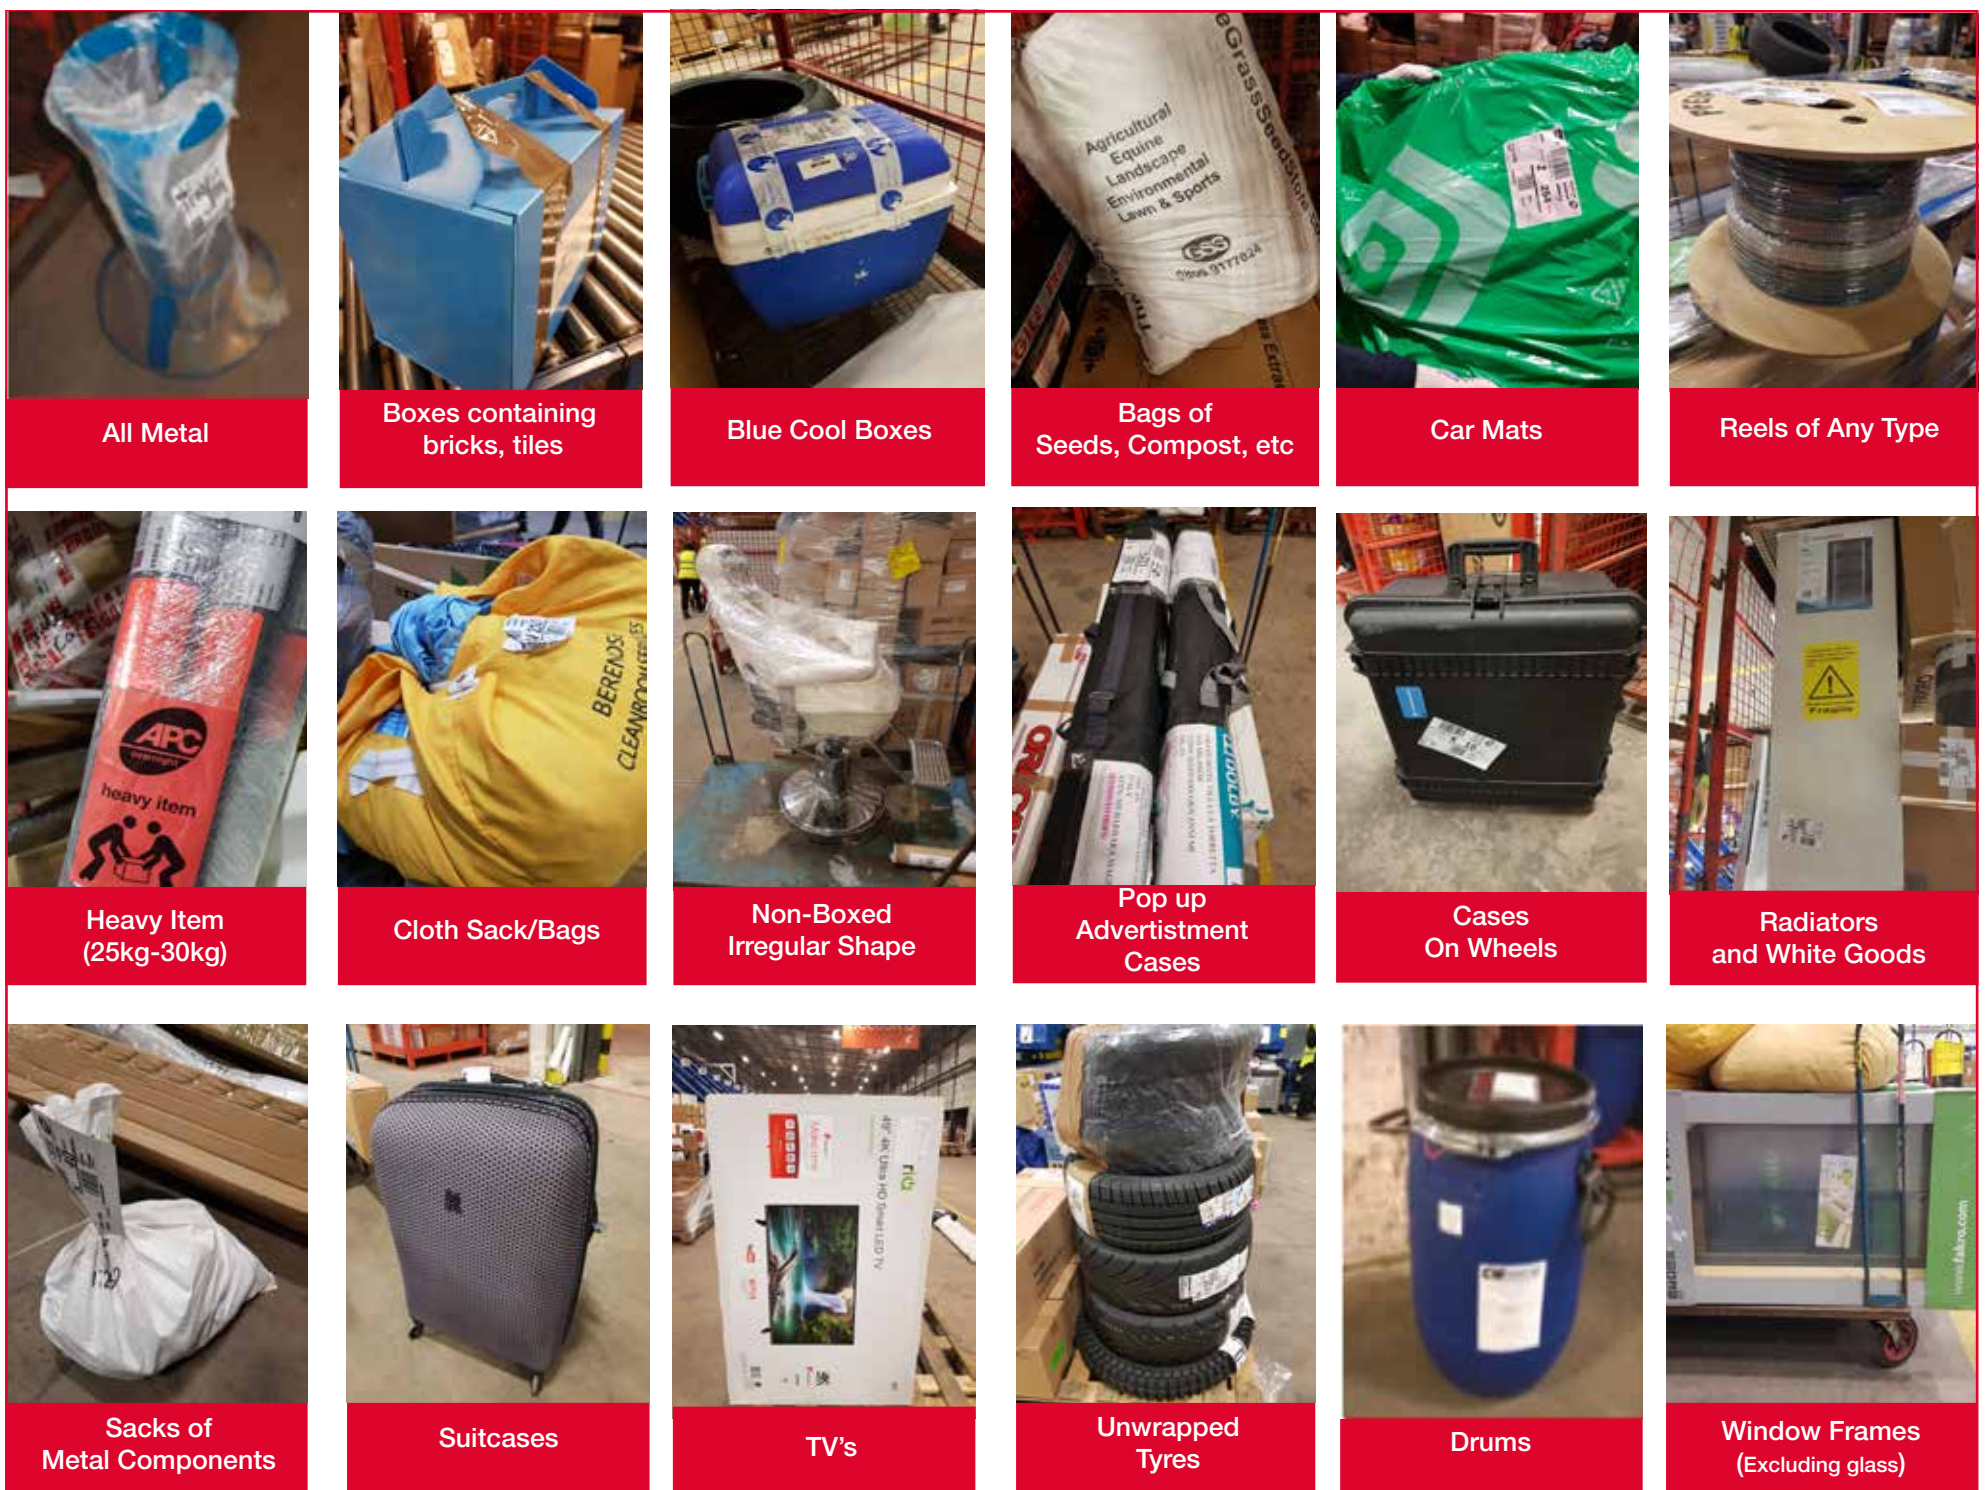

The Non-Conveyable (NC) service accommodates items that are over our standard ND service which is 1.2m x 0.55m x 0.50m and up to 1.6m x 0.6m x 0.6m (max 1.20m combined for the 2nd and 3rd dimensions)

Although your item may be smaller and fit within the 'ND' service dimensions, because of the contents/profile of your item it must travel on our NC service

With effect from Monday 5th November 2018 any items matching the example profiles below must be booked as an NC consignment

For further advice, please contact your local APC Depot

Select 'NC' Service Code for the following:

The above are examples of items that must travel as NC, but other items may also be unsuitable for our ND service, please speak to your local depot for advice.
