

Bespoke Customer API Integration– How to Add Leave Safe Instructions

You will need to contact your service provider who manages your API integration and ask if there is an option to add a special instruction when placing an order.

If there is no option or you want to add it as a default on your schema when placing an API call this can be done by editing your schema. An XML and JSON example have been provided below

XML example

```
<?xml version='1.0' encoding='UTF-8' standalone='no'?>
<Orders>
<AccountNumber></AccountNumber>
<Order>
<CollectionDate></CollectionDate>
<Reference></Reference>
<ProductCode></ProductCode>
<ReadyAt></ReadyAt>
<ClosedAt></ClosedAt>
<Delivery>
<CompanyName></CompanyName>
<AddressLine1></AddressLine1>
<AddressLine2></AddressLine2>
<PostalCode></PostalCode>
<City></City>
<County></County>
<CountryCode></CountryCode>
<CountryName/>
<Contact>
<PersonName></PersonName>
<PhoneNumber></PhoneNumber>
<MobileNumber></MobileNumber>
<Email/>
</Contact>
<Instructions>Leave Safe</Instructions>
</Delivery>

<GoodsInfo>
<GoodsValue></GoodsValue>
<IncreasedLiability></IncreasedLiability>
<Security></Security>
<Fragile></Fragile>
```

```
<GoodsDescription></GoodsDescription>
</GoodsInfo>
<ShipmentDetails>
<NumberOfPieces>1</NumberOfPieces>
<TotalWeight>1</TotalWeight>
<Items>
<Item>
<Type></Type>
<Weight></Weight>
<Length></Length>
<Width></Width>
<Height></Height>
<Value></Value>
</Item>
</Items>
</ShipmentDetails>
</Order>
</Orders>
```

JSON example

```
{
  "Orders": {
    "Order": {
      "CollectionDate": "",
      "ReadyAt": "",
      "ClosedAt": "",
      "ProductCode": "",
      "Reference": "",
      "OrderNumber": "",
      "Delivery": {
        "Instructions": "Leave Safe",
        "CompanyName": "",
        "AddressLine1": "",
        "AddressLine2": "",
        "PostalCode": "",
        "City": "",
        "County": "",
        "CountryCode": "",
        "Contact": {
          "PersonName": "",
          "PhoneNumber": "",
          "Email": ""
        }
      }
    },
    "Collection": {
```

```
"CompanyName": "",
"AddressLine1": "",
"AddressLine2": "",
"PostalCode": "",
"City": "",
"County": "",
"CountryCode": "",
"Contact": {
    "PersonName": "",
    "PhoneNumber": "",
    "Email": ""
}
},
"GoodsInfo": {
    "GoodsValue": "",
    "GoodsDescription": "",
    "Fragile": "",
    "Security": "",
    "IncreasedLiability": ""
},
"ShipmentDetails": {
    "NumberOfPieces": "",
    "Items": {
        "Item": [
            {
                "Type": "",
                "Weight": "",
                "Length": "",
                "Width": "",
                "Height": "",
                "Reference": ""
            }
        ]
    }
}
}
}
}
```

Once the schema has been amended when you print a label you will “Leave Safe” in the “Special Instructions”
